# THE LAWS OF THE UNIVERSE

## *The Law of Divine Oneness*

Everything in the Universe is connected to absolutely everything else. Everything that we say, do and think effects each other, and the entire of Creation around us.

## *The Law of Vibration*

Everything in the Universe MOVES, VIBRATES AND TRAVELS IN CIRCULAR PATTERNS. These same principles of vibration apply in the physical Realm, to our thoughts, words and goals as they do in the etheric. Every word, thought and feeling has its own vibration Frequency, unique unto itself.

# *The Law of Action*

Action must be applied in order for us to manifest things in the Earth plane. Therefore, we must engage in actions that support Our Divine thoughts, dreams, feelings and words and Divine co-creation.

# *The Law of Correspondence*

The principles, or laws, of metaphysics that explain the physical plane of energy, lies in Vibration. The corresponding principles of the etheric, operate under the principle of 'As above, So Below'

# *The Law of Cause & Effect*

Nothing happens by chance or outside the universal laws. Of course, we can act Outside of Universal Law here on Earth, as we have been given Free Will, however every action or energy embodied outside of Universal law will attract like results. Every action has a consequence. We reap what we have sewn.

## *The Law of Compensation*

This is the Law of cause and effect, applied to Blessings and Abundance that is provided for us. The physical effect of our good deeds are given to us in gifts, money, inheritances, friendships, miracles and blessings. When we give Love we get Love. Often, we can believe that we have been giving 'Love,' however the motivating energy was actually to feel better ourselves, to validate ourselves or prove our worth. However subconscious that action is, the Universe knows the energies you are embodying, even when the mind does not allow your understanding. Only the Heart feels, and therefore knows.

# *The Law of Attraction*

This law determines how we create things, events and people that come into our lives are always a reflection of Our internal energies. The situations you find yourself in, the people you attract are a reflection of some aspect of you.

Our thoughts, feelings, words and actions produce energies that in turn attract like energies. Anger attracts anger, joy attracts joy. Negative attracts negative and positive attracts positive.

# *The Law of Perpetual Transmutation of Energy*

All persons have within them the power and capacity to change ALL conditions in their lives. Higher vibrations, consume and transform lower ones, ALWAYS. Therefore each of us has the constant capacity to change the energies and vibrations we embody, and therefore the energies and vibrations of our lives, by understanding the Universal Laws that defines the principles in such a way as to effect change.

# *The Law of Relativity*

Each person will receive a series of ‘tests of initiation,’ for the purpose of strengthening and uncovering the light within. We must consider each of these tests to be merely a lesson or a blessing, although they can feel like challenges, and remain connected to Our Heart throughout. It is through the Heart that we grow. We must be grateful for each situation, because the judgement of whether it is good or bad is an illusion – it just is, and it has come into your life because it was exactly what your soul needed to expand.

# *The Law of Polarity*

Everything is on a continuum and has an opposite, we can and transform ALL unfavourable thoughts by focusing on the opposite pole. It is the Law of vibration..

# *The Law of Rhythm*

Everything vibrates and moves to certain rhythms. These rhythms establish seasons, cycles, stages of development and atoms. Each cycle reflects the regularity of Gods universe. Masters know how to raise above negative parts of a cycle by Being in a state of Divine non-attachment, never allowing their consciousness to get penetrated by negativity.

---

# *The Law of Balance*

Everything has its Masculine – Yang, and its Feminine – Yin. This principle is the basis of All Creation. The spiritual initiate must balance the masculine and feminine energies within themselves to become a Master and True co-creator with God.

---

# *The Law of Transparency*

Love is transparent with All. Nothing is hidden,  
as All is able to access Love with All of Creation.

We are Genuine, Authentic and True, for our  
very essence is Love.

## *The Law of Unity Consciousness*

We Are All One connected with Prime Creator,  
Source, Mother of All Creation, Great Spirit. All

Consciousness, Knowledge, Wisdom,  
Unconditional Love flows throughout All of  
Creation. We experience, grow, expand and  
share Love with All.

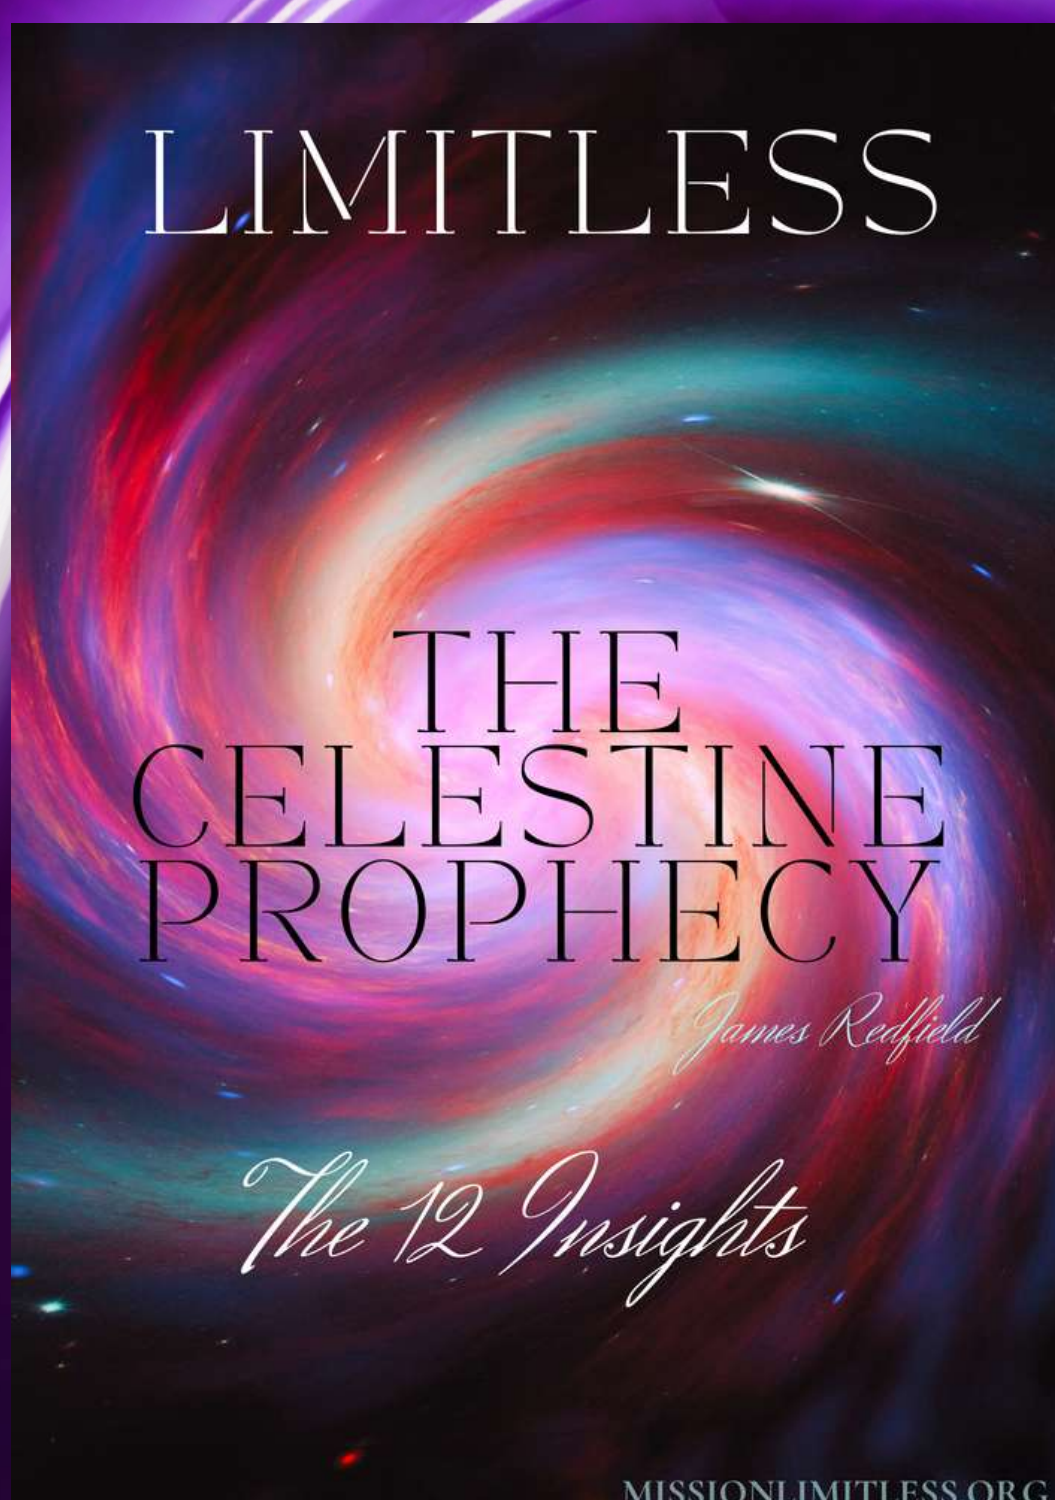

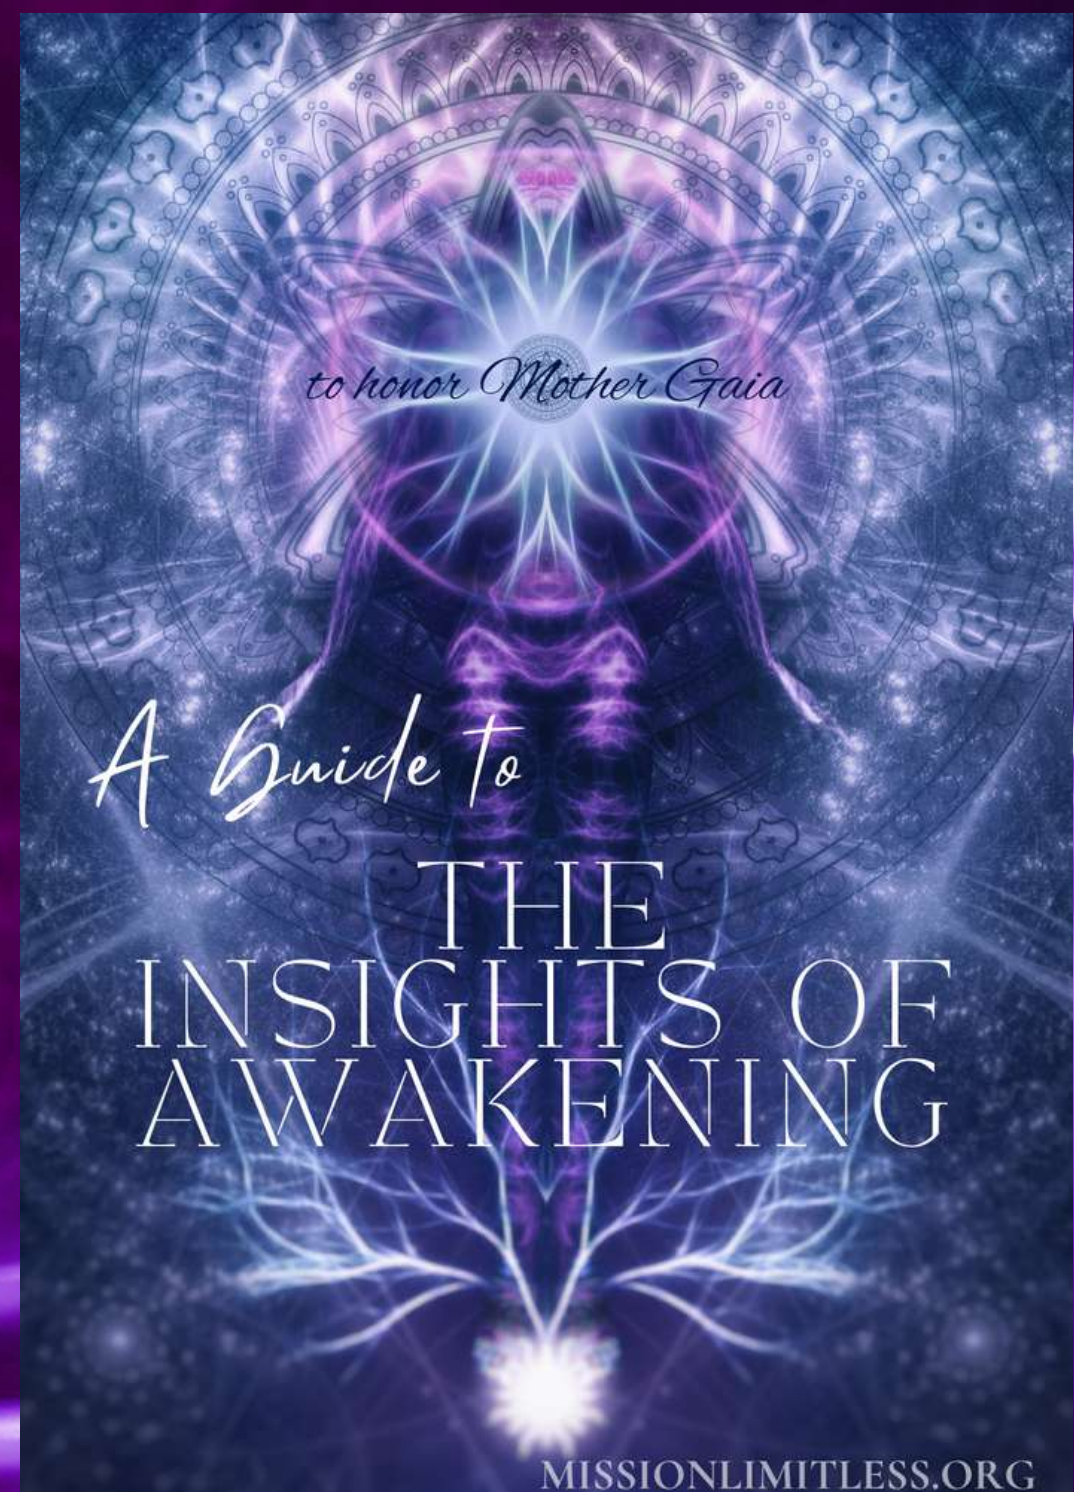

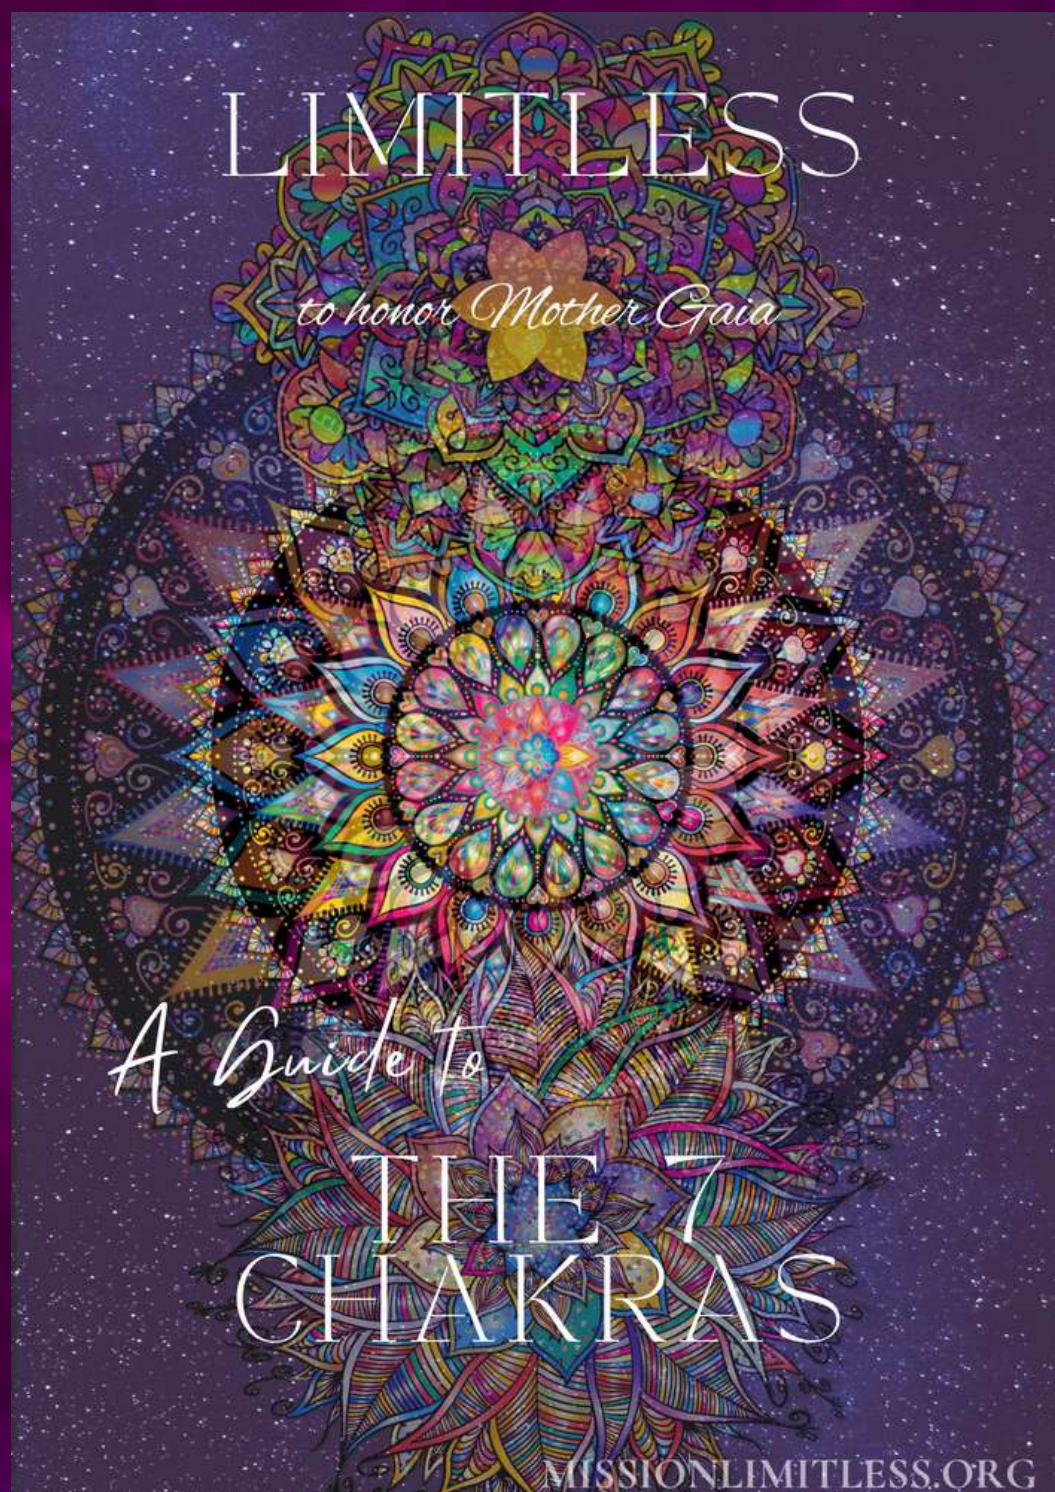

# *The Law of Unconditional Love*

We are All created in Unconditional Love as the mirror image of Mother and Father of All Creation. We are to Be Love in Every Moment, representing all the Divine traits of our Beloved Spiritual Parents. We Honor all Benevolent Life and assist in the continued expansion of Creation in Unity Consciousness.
