# THE DRAGONS

There are 8 Main Dragon Clans, from The Dragon Realms and they are stationed in the Inner Earth for the New Earth Mission and the Final Phase of Our Galactic Evolution. These are distinguished by 8 colors, Red, Black, Orange, Yellow, Green, Blue, Indigo and Purple. Even though the Indigo dragons are the eldest, it is the Black Dragon clan known as the Draco that are the most ferociously passionate in their guardianship.

The Giant dragons, live in the Earth's 'core,' which is actually the sky of the Inner Earth. They are the Primary and ultimate guardians of Gaia. They Guard the Tangent Cylinder, the plane that intersects the Top of the Inner Earths cylindrical formation, which is divided into 8 parts and governed by the 8 clans.

The Dragon energy is our connection to the very beginning of the Earth's story and ancient race that underwent their own Ascension in their realms eons ago. Dragons are powerful warriors and through their Ascension process they developed incredible tenacity and perseverance, these are qualities that can be harnessed by All here on the Earth plane to arise from the Planetary enslavement occurring in these moments.

Dragons bring about great Awareness of the creative energy within and can be called upon to bring inspiration when the way does not seem so clear. The dragons eggs can be found All around the Planet, they contain light codes, activating within us light energy from the moments long before the Dragon energy Ascended.

# THE DRAGONS

Our journey here on the Surface of Earth is to Become ONE, with Mother Earth, our Host and All natural elements, in doing so we regain connection with those of the Inner Earth and All other higher dimensional beings.

As we turn Our focus to the finer subtle energy existing within and without, we become Masters of vibration, this activates Our bodies to connect in this way, our bodies become lighter and clearer. It is through slowing down and going within that we can connect with the dragons, fairies, elves, and All creatures of the Inner Earth nature, and beyond. This process allows us to connect with and feel the crystals, stars, sun, Earth Herself.

The Dragon energy, is a vital life force energy that runs in our earth and the in the crystalline grids as well as within the collective consciousness of humanity, assisting us to access our crystalline body.

The anchoring in of the dragon energy allowed Our bodies to become an even higher frequency assisting with the transformation into our Diamond Light Body, multi-prismed and multi-dimensional.

There are significant points on Earth where the dragon grids meet with the serpent wisdom, The Serpent of Ophiuchus the Spiritual Doctor, this is the role Mother has been operating in whilst in incarnation on the Planet, unifying and moving the Planet into the Higher dimensions. The Earth is vast in its multidimensionality, with many gateways, portals, vortexes operating through the Earth and connecting and bridging the Planet to Heaven.

# THE DRAGONS

The Dragons presence upon the Earth is becoming known, greater numbers of people are consciously accessing this energy, connecting us to The Beginning origins of the Planet, assisting in the Return of the Garden of Eden upon Earth, and ushering in the Age of Union, with our own Divine Essence and All of Creation.

This signifies the completion of Our liberation, the emergence of Our Co-Creative Life force to usher in Heaven Upon Earth through Our Love.
